Issue 23

This issue of the *Sunday Niche Newsletter* will discuss your most efficient path to meeting your Red Niche Coin Tax Liability and getting paid-out.

First, make sure you watch the Introduction to UnSecurities video on YouTube. This is the best way to figure out how to get maximum payment.

Next, you can earn all 40 Red Niche Coins by demonstrating professionalism during your job. In other words, you do not necessarily have to do all the financial literacy lessons to earn the 40 Red Niche Coins.

THE NICHE CLINIC 4 Ps of Professionalism	
Presence <i>Is the intern working 100% of the time they should be?</i> (0-10)	Punctuality <i>Is the intern on time?</i> (0-10)
Performance <i>Please rate the intern's quality of the work they do for you.</i> (0-10)	Power <i>How much does the intern go above and beyond, arguably replacing the need for additional interns? A score of 0 means the intern does not go above-and-beyond at all, while a 10 means the intern does the work of 2+ interns.</i> (0-10)

Every day you show up, you will be scored on the 4 Ps of Professionalism - presence, punctuality, performance, and power. (Read last week's issue of our newsletter if you do not know what those concepts refer to.)

Whatever your average score for the day, that will equal the number of Red Niche Coins you receive.

Daily average score = # of Red Niche Coins you earn

Let's say you earn the following scores on Tuesday, February 13:

Name: Patrick Star	
Presence	4
Punctuality	4
Performance	2
Power	2

The average score is 3 (the average of 4, 4, 2 and 2 equals 3.) That means you earn 3 Red Niche Coins for the day. If this is how you do every day, then showing up for 14 days would give you 42 Niche Coins, thus allowing you to trade it any other Niche Coin you have earned.

$$\text{Average Formula} = \frac{\text{Total Sum of All Numbers}}{\text{Number of Item in the Set}}$$

Next week we will discuss our Virtual and Self-Paced Financial Calculator option, and maybe (if everyone is watching our YouTube videos) we will go over the UnSecurities UnProspectus.
